

Aero Pillowtop Bed

The Aero Pillowtop Bed fully inflates in less than a minute and deflates in 15 seconds—a comfortable extra bed that's fast, easy and compact. Perfect for overnight guests, camping and children's sleepovers.

Be a gracious host: instead of relegating your overnight guests to an uncomfortable sofa bed or lumpy futon, quickly inflate the Aero Pillowtop Bed and let them enjoy a good night's rest. The exclusive built-in electric pump and valve system allows easy inflation in just 60 seconds—plug in the powerful AC pump, touch a button, and the Aero Pillowtop Bed inflates into a thick, comfortable mattress with a luxurious 1½"-thick quilted pillow top. The patented One-Touch comfort control allows guests to adjust the bed to their ideal firmness with the touch of a button. When you're ready to put the bed away, just open the air release valve and watch the Aero Pillowtop Bed deflate in only 15 seconds. Roll it up and store it in its space-saving duffel bag.

Made of durable, heavy-duty vinyl with electronically welded seams, the Aero Pillowtop Bed will withstand years of use. The coil-system design provides lasting support for up to 650 lbs. without sagging, bowing or swaying, and keeps air evenly distributed for a long, comfortable sleep. The rugged, waterproof construction and compact size also make the Aero Pillowtop Bed ideal for camping.

Includes AC pump and lightweight duffel bag. Fits standard-sized sheets. One-year limited warranty. Twin \$129.95; Full \$169.95; Queen \$199.95.
