Venice

(Small Pagoda)

Coco stood before her armoire, planning her outfit for the long day ahead. Would the sun shine all day long, or would rain fall before evening? No matter ... the Venice would suit either way! If only selecting her frock was this easy...

Perfect for any weather, the light, clever design of the Venice makes it the ideal umbrella for shielding its owner from either drops of rain or rays of sun. Embodying the same design principles as our other pagoda-style models, this square umbrella is at once functional and saucy, a faultless combination of style and substance.

The raised, pagoda-style peak, a solid square of color, is offset with a border and trim in four stunning color presentations. To view each option, please select one of the following:

Red - White/Navy Dots - Red

Black - Red - Red

Tobacco - Cream - Chocolate

Black - White - Black

Measurements: 42" wide; 32" handle

What are customers saying?

"I never had so much fun with an umbrella... I felt like a splash of fashion in a sea of black umbrellas."
