

Ionic Breeze® Auto Air Purifier

Eliminate stale, smelly air from your car for good with our Ionic Breeze® Auto Air Purifier.

Our most popular product. Sharper Image Design's exclusive Ionic Breeze® air-purifying products are undisputed bestsellers. Affordable, practical and durable, our air purifiers are replete with compelling features: silent operation, superior air cleaning and odor neutralizing capabilities, low energy consumption and lightweight housing with sleek, attractive design. Ionic Breeze® purifiers never need replacement filters or complicated maintenance. Just rotate and remove the collection ring for easy cleaning.

Clean air to go! Our latest product brings clean, odor-free air to a place where you spend hours every week-your car. Simply insert the Ionic Breeze® Auto Air Purifier's power cord into your car's power/accessory socket and rotate the control to "on." A blue LED light indicates the purifier is working to remove airborne pollutants, negative ionic particulates and unpleasant odors from your car's interior, leaving you with fresh, breathable air.

We know you live in your car. This unobtrusive purifier is not just affordable, it's also practical: a "pass-through" socket on the unit's exterior allows you to use additional accessories, such as radar detectors and electric shavers, while keeping your car's air clean. An articulated extension piece is included for use with a wide variety of automobile dash configurations, so whatever the year, make or model of your car, you're guaranteed fresh, clean-smelling air.

The Ionic Breeze® Auto Air Purifier contains no moving parts and is powered by your car's power/accessory socket. Black with a chrome rotary control, this purifier reflects Sharper Image's superior cutting-edge design. With extension, the unit measures 7½' x 4-1/8' x 1¾". One-year warranty. Created by Sharper Image Design. \$39.95.
